EDUCATION

- **National Research University Higher School of Economics** Moscow, Russia
Master of Artificial Intelligence Aug 2025 – Jun 2027
- **National Research University Higher School of Economics** Moscow, Russia
Bachelor of Science in Applied Mathematics Aug 2021 – Jun 2025

EXPERIENCE

- **T-Bank (ex. Tinkoff)** Moscow, Russia
Risk Analyst Oct 2023 – Present
 - Risks of Credit Products: ML model quality assurance, end-to-end A/B testing processes, new logic implementation
- **Education quality committee of HSE** Moscow, Russia
Analyst Jan 2023 – Sep 2023
 - Student Assessment of Teaching analysis
 - Academic Discipline Programs validation
 - Analyzed distribution of Independent English Exam grades

PROJECTS

- **DL Service for Short-Term Cryptocurrency Forecasting**
DL Researcher (Group project) Sep 2025 – Jun 2026
 - Researched ML and DL methods in cryptocurrency forecasting.
 - Containerized the cryptocurrency forecasting model with Docker, delivering a near-production solution.
- **Neural Networks for numerical solutions of partial differential equations** Moscow, Russia
Python Researcher Oct 2024 – Apr 2025
 - Analyzed Fully-connected networks for numerical solutions of partial differential equations.
 - Used Fully-connected network for predicting position of a mechanical system.

SKILLS

Programming Languages: Python, SQL
Developer Tools: Jupyter Notebook, Docker, Kubernetes
Frameworks & Libraries: Pandas, PyTorch, MLflow
Languages: Russian - native, English - Upper-Intermediate (B2, FCE)

OTHER

Soft-skills: Stress-resistance, Reliability, Initiative
Interests: Deep Learning, Machine Learning, Data Science, Analytics
